

Özgür Vurgun

ozgurvurgun1@gmail.com | +90 552 936 79 51 | İzmir / Türkiye

github: <https://github.com/ozgurvurgun>, linkedin: <https://www.linkedin.com/in/ozgurvurgun1/>

Skills

Css3, React, Javascript, Wasm, PHP, C, SQL, Mysql, Full Stack Development, Embedded Sys.

Experience

Eres Biotechnology - Software Developer

June 2021 - August 2022 Aydın / Türkiye

- During my work, I set up remote connections to a Linux server and performed the devOps process of WordPress sites. I used tools such as Debian, Nginx, Php, Bash
-

Some Projects

Php Base Frame

- PHP base frame is an MVC-based PHP framework with its own routing system. I developed this project as a guide for MVC and OOP beginners.
- Source: <https://github.com/ozgurvurgun/php-base-frame>

Adu Art History Community Quiz Game

- Adu Art History Community Quiz Game is a quiz game I developed for the art history community of Adnan Menderes University.
- Source: <https://github.com/ozgurvurgun/ozgurvurgun.github.io/tree/main/art-game>
- Live: <https://ozgurvurgun.github.io/art-game/>

Qr Order Management System

- This QR menu, unlike other QR menus, allows ordering from the phone.
- Source: <https://github.com/ozgurvurgun/ozgurvurgun.github.io/tree/main/cafe-menu>
- Live: <https://ozgurvurgun.github.io/cafe-menu/>

Some of My Projects in the Product Environment

- <https://vincendustri.com> (A CMS that allows product entry, exit and management)
- <https://github.com/ozgurvurgun/mips-assembly> (I teach Turkish assembly)
- <https://nareks.net> (A plugin that automates address entry)

For more, you can check out my github profile.

Education: Aydın Adnan Menderes University, Computer Programming (GPA: 3.63 / 4.00)
